MONSOON

Few things grace a home and define its style with quite such ease and elegance as a table dressed with the finest cutlery.

Our passion for producing luxury cutlery to the highest standards of quality and craftsmanship remains at the very heart of everything we do.

Since 1902, and five Price family generations later, we still insist on handcrafting each individual piece. We do this by combining traditional skills, uncompromising quality and the latest manufacturing technology so that a lifetime of dining pleasure awaits you.

FROM 60,000 FEET TO THE DEPTHS OF THE OCEAN

ARTHUR PRICE WAS THERE WHEN HISTORY WAS MADE

From the dining rooms of royalty to supersonic firsts and epic voyages, Arthur Price was there when history was made. Our silverware was used on the first supersonic passenger flights of Concorde – and lies at the bottom of the ocean in the first class dining rooms of the Titanic.

When history happened we were there.

BAGUETTE

With fluid lines Baguette's understated pattern complements both traditional and modern settings.

Arthur Price of England

Enduring Perfection for Today and Tomorrow

BEAD

The Bead pattern was originally designed by Huguenot silversmiths to represent pearls, which were popular in the French court of the 1760s.

BRITANNIA

Quintessentially English, the Britannia pattern is based on the threaded Old English patterns of the 1750s which have enjoyed international popularity ever since.

Arthur Price of England

Enduring Perfection for Today and Tomorrow

CHESTER

This pattern was commissioned by the Lord Lieutenant of Cheshire, the 2nd Duke of Westminster during the early 19th century.

DUBARRY

The Dubarry design originated during the early 19th century. Inspired by the fashions of the period this pattern is the epitome of sleek delicacy.

Arthur Price of England

Enduring Perfection for Today and Tomorrow

GRECIAN

The Grecian design was first produced during the Art Deco period, its bevelled edges and angular corners reinterpret the geometry of classical Greek architecture.

HARLEY

Harley originated from the Art Deco period of the 1920s and 1930s which demanded bold geometric design and a strong emphasis on quality.

Arthur Price of England

Enduring Perfection for Today and Tomorrow

KINGS

Kings is a direct descendant of an older pattern called Fiddle Thread and Shell. This particular adaptation first appeared around 1817 and is still enormously popular today.

OLD ENGLISH

Old English evolved in the 1750s from the Rattail pattern. The 'pip' seen on the front of the fork handle appears on the reverse of the spoon because, in the Georgian era, spoons would have been laid face down on the table.

Arthur Price of England

Enduring Perfection for Today and Tomorrow

RATTAIL

Rattail is the oldest pattern in the range and dates from around 1710 when modern table etiquette started to develop.

Titanic Cutlery Collection
1912-2012
Certificate of Authentication

This document certifies the authenticity of Arthur Price of England's RMS Titanic centenary cutlery collection to commemorate the maiden voyage of the legendary ocean liner on 10th April 1912.

"The tale of the Titanic has been in my family for five generations. It's an honour for me to be able to commemorate this historic anniversary.

My Great Grandfather firmly believed in fine British craftsmanship and uncompromising quality which is why our cutlery was selected for use at the Captain's table, onboard the finest luxury liner of its day.

I hope you'll enjoy this wonderful cutlery that's been built to stand the test of time."

Simon Price, Chief Executive

TITANIC

The Panel Reed pattern was supplied for use in the first class dining accommodation on board the world's most famous ocean-going, luxury liner.

CARING *for your* Cutlery

These few simple guidelines will help keep your cutlery in tip-top condition.

Dishwashers

- All our stainless steel cutlery is dishwasher safe. Follow the manufacturers instructions.
- Avoid mixing stainless steel and silver plated cutlery in the dishwasher basket as this will corrode the steel.
- The damp atmosphere of a dishwasher can cause damage over time so try to remove and dry your cutlery as soon as the machine cycle has finished.
- Keep the dishwasher rinse agent topped up to prevent smearing.

Handwashing

- When handwashing avoid using liquid bleach and ensure that detergents are dissolved otherwise staining may occur.
- Prolonged contact with water should be avoided as this has a corrosive effect.
- Once your cutlery is washed try to dry it as quickly as possible using a soft cloth.
- Do not use scouring pads or abrasive sponges when washing up as they can scratch.
- Avoid detergents containing lemon.

Polishing

- Do not clean stainless steel with silver polish as it's too acidic.
- If staining does occur, a good stainless steel cleaner can be used to remove marks.
- Please remember that over time small surface scuffs and scratches will develop and this is only natural.

If these steps are followed you can look forward to many years of good service from your Arthur Price cutlery. Remember... Stainless steel means it stains less *not* doesn't stain at all.
